IMPORTANT NOTICE: Do not mix pipe, fittings, or cement from different BH vent manufactures. This can result in unsafe conditions and will void both the certification and product warranty.

Alggin is a distributor of A-vent & specialty chimney products including:

Insulated stainless steel A-Vent chimney.

Applications: Venting of gas and liquid fuel-fired residential appliances and building heating equipment, where the temperature does not exceed 540 degree C (1000 degree F).

Category II, III, IV - AL29-4C factory built chimney.

Applications: Venting of high efficiency, condensing type equipment.

Double wall positive pressure chimney and breaching systems.

Applications: Positive pressure system for venting boilers, kilns, grease duct, & emergency generators.

Refractory lined venting systems.

Applications: Acid resistant and high temperature (3100 degree F max) applications such as venting of boilers, furnaces, kilns, incinerators, wood and coal burning appliances, diesel/gas engines, emergency generators, scrubber and heat recovery systems, process equipment, & smoke venting and fume incineration.

System 636 PVC - flue gas venting.

Applications: Type BH - Class IIA - Max temp rating of 65 degree C (149 F). Standard ULC S636.

Please contact your Alggin sales representative for further information and all pricing inquiries.
